That he finds Dr. Gooch of Caius expects one for himself, who was a very zealous Promoter and Encourager of the Design and he believes was a Benefactor, but can't say what he gave in particular, because the Mony he receiv'd from him was in the Name of the College. That Dr. Graham has a Living in Lincolnshire where he resides some part of the Summer, but his Lordp does not know that he is going thither, however will let the Society know farther of that matter before he leaves Eton. That Mr. De Vers is preparing to go for Switzerland with his whole Family, therefore some French Gent. or other will be desir'd to come to Eton in his place to instruct the Children in the French Tongue, and if a Valuable person succeeds him in that Business, he will probably be the fittest to succeed him also as a Corresponding Member, otherwise he fears it will be a difficult Matter to find a proper person in that Town.

9716. Pet: Osborne at Stoke Gabriel Devon. 12th May. That he is sorry his Proposal for investing the Minister and Churchwardens of every parish where no Justice of peace resides with the same power to punish, Cursing and Swearing and Drunkenness as the Justices of Peace have, should meet with any Opposition, as he fears it does, and thinks a Xtian parliament could not reject such a Motion that has such a Tendency to suppress those growing Vices. [See his Lre for the rest of his Sentiments on this head] that the Society's laudable Zeal in printing and dispersing so many good and usefull Books, he can't but commend, but the Misfortune is, that those who most need these Books will not read nor consider 'em, therefore thinks such an act of parliamt. as he proposes would do more Good than all the Books that can be given. Desires H: N. to use his Interest for a Parochl: Library for the parish of St. Petrox near Dartmouth
